SUMMARY

Senior Software Engineer with over 4 years of experience building scalable backend systems, modernizing legacy platforms, and delivering high-performance API solutions. Expert in Python, Perl, FastAPI, and Cloud-native architectures, with a proven track record of leading large-scale migrations and mentoring teams to achieve engineering excellence. Recognized for optimizing OTA (Online Travel Agency) integration flows and reducing system complexity for global hospitality platforms.

EXPERIENCE

STAAH (An Access Group Company, UK) *Surat, Gujarat, India*

Senior Software Engineer – OTA Integration Sept 2021 - Sept 2025

- Spearheaded the transition of **90+ OTA** integration scripts from Perl to Python, reducing technical debt by **35%**.
- Architected a unified Python-based ARI Push System, consolidating 85+ legacy scripts and reducing onboarding time by **80%**.
- Designed a flag-based modular framework supporting 85+ global partners, enabling rapid configuration with minimal code changes.
- Developed a proactive failure alerting system (30-min checks), improving transparency and incident response time.
- Owned the end-to-end architecture and rollout strategy for the OTA reservation flow migration from Perl to Python.
- Built reusable backend modules for MySQL, Redis, SQS, and DynamoDB, accelerating development speed by **25%**.
- Led rigorous code reviews and provided architectural guidance to **5+ junior** engineers to maintain backend best practices.

EDUCATION

Bachelor of Engineering in Computer Engineering *Graduated 2021*

Gujarat Technological University, Gujarat | CGPA: 8.42

TECHNICAL SKILLS

Backend Engineering	Python, Perl, FastAPI, Flask, Django and Microservices.
API & Integration	REST and specialized OTA integration strategies.
Cloud & DevOps	AWS, Docker, Git, Linux and CRON.
Databases	MySQL, PostgreSQL, SQLite, Redis, Amazon DynamoDB
System Design	Legacy modernization (Perl to Python), API migrations.
Project Leadership:	Team leadership, architectural roadmaps, and mentoring 5+ junior engineers.

ACHIEVEMENTS

MST Detector: **BE Project Research Paper:** Raval R., Patel J. and Patel H. (2022, May). Face Mask, Social Distance and Body Temperature Detector. Published in the International Journal of Computer Applications (IJCA) (Volume 184 - Number 13, pp. 38-43).

Strategic Recognition: Recognized for leading critical API migrations from Perl to Python.

INTERESTS

- **Technology & Innovation**: Actively tracking digital trends to implement modern architectural patterns in software development.
- **Investing & Finance:** Passionate about personal finance and market analysis, which has strengthened my analytical and long-term strategic thinking.
- **Storytelling & Travel:** Enthusiast of cinema and global travel, helping me appreciate diverse perspectives and creative problem-solving.
